

## Line 2 closed – Pape to St George stations

### Parking restrictions to speed transit and traffic on Danforth and Bloor

**Date:** October 8 to 10, 2016

Timeline/content accurate at time of printing

#### Work description and purpose

During the October 8-10 long weekend, there will be no subway service on Line 2 between Pape and St George stations as the City of Toronto continues rehabilitation work on the Prince Edward (Bloor) Viaduct and the TTC performs state of good repair work, which includes signal system, track and station maintenance, and PRESTO installation.

Shuttle buses will operate between Pape and St George stations during the closure. Regular subway service resumes on Tuesday, October 11 at 6 a.m. Upcoming subway closures between these two stations in 2016 are scheduled for the weekends of November 5/6 and November 26/27.

#### Parking restrictions on Danforth and Bloor over the weekend

During this weekend subway closure, TTC in coordination with City Transportation will be temporarily restricting on-street parking on Danforth Avenue and Bloor Street to keep transit and vehicular traffic moving as fast as possible for TTC customers and all road users. During previous subway closures, on-street parking restrictions have been effective in reducing congestion along the shuttle bus route.

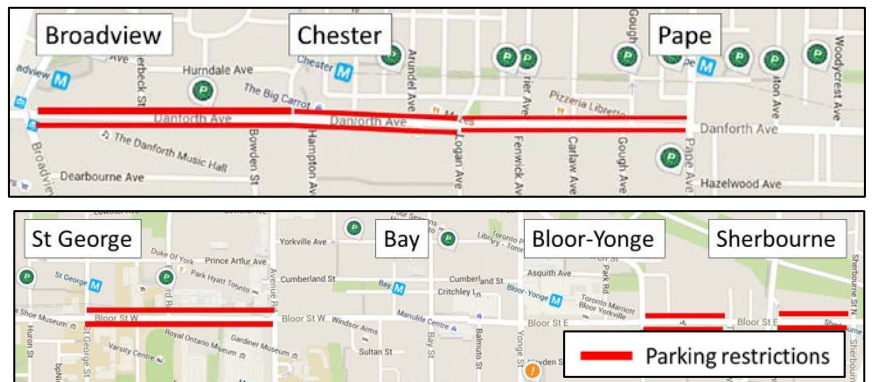

#### Parking restrictions will be in effect between 3:30 a.m. Saturday to 12:01 a.m. Tuesday:

##### Both sides of Danforth Avenue between:

- Pape to Broadview avenues

##### Both sides of Bloor Street between:

- St George Street to Avenue Road
- Church Street to Ted Rogers Way
- Huntley to Sherbourne streets

#### Transit service - shuttle buses

All westbound subway trains will turn back east at Pape Station and all eastbound subway trains will turn back west at St George Station. During this closure, shuttle buses will run on Bloor Street and Danforth Avenue between the two stations, stopping at the intersection of each subway station location along the route.

Wheel-Trans buses will be available for customers requiring accessible transit. Customers can speak with any TTC staff member to request the service.

PRESTO is not yet available on all shuttle buses. Customers should carry tokens, tickets or cash in case the vehicle that arrives is not yet PRESTO-equipped.

*Thank you for your patience as we work to improve transit in Toronto.*
